

Water & Sanitation Worldwide

1 in 8 people do not have access to safe drinking water

Every \$1 invested in water & sanitation gives an economic return between \$3 & \$34

Diarrhea is the 2nd biggest killer of children under 5 years old

Every minute a child dies from water-related illness

50% of hospital beds are filled with people suffering from water-related disease

Over 840,000 people die each year from water, sanitation, and hygiene-related causes

Unclean water kills children at a rate equivalent of a jumbo jet crashing every 10 hours

443 million school days are lost each year due to water-related illness
